8	Planned Colonies	5.22	225	1174.5
	Total			4040.0

- (b) Fire Demand based on 1000 p = 14.83 MLD
- (c) Non Domestic Demand (Category -II)
Non Domestic Demand is based on present supply increased in the same proportion as population increase. Therefore Non Domestic Demand (Cat-II) = 120×1.64
= 196.8 MLD
- (d) Non Domestic Demand (Category -III)
Based on the same principle Non Domestic Demand (Cat-III) = 70.20 MLD
- (e) Leakages & Line losses (10%)
It is assumed that with use of better materials, technology up-gradation and strict quality control during construction, replacement of old pipes and fittings, rehabilitation of WTP and BPS, Ground reservoir and OHT, Leakage and line losses will be restricted to 10%.
= 430.80 MLD
- Total Future Demand = 4752.63 MLD**
