CHAPTER -11
JAIL

S. No.	Particulars	Information
colspan	**PART A- FOR DEPARTMENT (TO BE FILLED AT HQ LEVEL)**	
1	**Basic Statistics**	NA
2	**Key Performance Indicator**	NA
3	**Introduction and Vision of the Department**	The implementation of E-Prisons project aimed at computerization of the functioning of all Prisons in the state, including digitization and availability of Prisoner data (Convicts, Under trials, Detenues etc.) in an electronic platform accessible to designated authorities of Central and State Governments.
4	**Key Targets of the Deptt.**	1. Create an end-to-end IT Solution for automation of Prison operations 2. Creating a centralized standard information database of Prison Inmates with their identification, activity and other Critical details 3. Creation of ICT setup in all Prisons of the state 4. Entry of Inmates details in software application on real time basis 5. Entering the legacy data since 2005 onwards 6. To develop suitable interface among various agencies 7. Integrating Police, Forensic, Courts, Prisons and Prosecution wings of criminal justice system 8. Improving the justice delivery system

PART B- Write-UP of Schemes /Programmes/Projects					
I	**Name of Scheme/ Programme/ Project**	The implementation of E-Prisons project			
II	**CSS/State Scheme**	CSS	**V**	**Funding Pattern**	100%
III	**Budget Head (11 digit)**	2056-00-101-98	**VI**	**BE (Rs. in Lakh)**	200.00
IV	**Objective/Justification of the scheme**	To create an end-to-end IT Solution for automation of Prison operations and creating a centralized standard information database of Prison Inmates with their identification, activity and other Critical details to develop suitable interface that can help in seamless sharing of information amongst different agencies. The required data is shared between the respective domains on real time basis using web services. To provide integrated management information system by inter-linking data from Courts, Police, Prison and Forensic laboratories with the basic objective of improving the justice delivery system. Online and instant access to data available in different software applications, which will reduce the time. The ultimate objective is speedier justice delivery to common man by inter-linking related justice delivery system and improving investigation quality. Alerts are issued automatically to all stakeholders whenever a serious crime happens, forensic report is ready for pending, an arrest is made, a case is coming up for hearing in the court and whenever a court passes some order or judgment in Interoperable/ Integrated Criminal Justice System (ICJS) implementation. Aimed at computerization of the functioning of all Prisons in the state, including digitization and availability of Prisoner data (Convicts, Under trials, Detenues etc.) in an electronic platform accessible to designated authorities of Central and State Governments.			
VII	**Nature of Scheme (Fill only relevant category)**				
(D)	**Procurement Oriented (To be procured in 2021-22)**	• Purpose of Procurement		The implementation of E-Prisons project	
		• Any other relevant information			
VIII	**Physical Achievements of the scheme**				

Achievements 2019-20	Achievements 2020-21	Targets – 2021-22
Online e-canteen in Rohini Jail and Online Booking of Visitors for Mulakat	Video Conferencing of Inmates for Court Production, Advocates & Family e-Mulakaat, ICJS integration of Police, Prisons in New Admissions, FIR mapping details & with Court for Bail orders, Custody & Surrender Certificates under test & live demonstration	Procurement of 50 nos. Computers, Printers with UPSs for smooth implementation of Hospital Management Module and e-canteen of e-prisons Project (CSS)
