

CHAPTER-11

JAIL

The problems associated with Indian prisons are not less grave. Overcrowding, lack of healthcare facilities are causes of concern. There are ten Prisons (nine in Tihar Complex and one District Jail, Rohini) at present which are highly overcrowded. The sanctioned capacity is of 6250 prisoners but about 14,000 prisoners are presently lodged. On an average about 1000-1100 prisoners go to attend various courts everyday. Around 300 to 350 prisoners are admitted and an equal number of prisoners are released daily. It leads to about 1,00,000 - 1,25,000 prisoners visiting the Delhi Prisons yearly.

With a view to reforming the prisoners and enabling them to start a normal and financially rewarding life after release, the prison administration has started several reform and correctional measures. The ten prisons are undertaking various activities including adult education, formal education, games, counseling, law, health, vocational, meditation, reformation, factories production. The prison administration has provided facilities for education of inmates by getting affiliated with the Indira Gandhi National Open University and the National Open School.

As a part of community participation in the reformation and social integration of prisoners after release, a large number of respectable members of non-governmental organizations, retired Major Generals, Professors of I.I.T. Delhi, Eminent Psychiatrists, Psychologists, Principals and Teachers of various educational institutions have been conducting various activities in the jail. These programmes have very sobering and positive impact on the psyche of the prisoners, who have been shown the positive and constructive approach to life after interaction with them. Some of the NGOs have trained selected prisoners on various trades and have been bringing job for them against payment of remuneration. They also rehabilitate these prisoners after their release. It shows that force is always not necessary to control and correct the prison inmates. The manner in which the Tihar administration has taken up the system of rehabilitation, it becomes important for other prisons of the nation to follow suit.

Various trades are taught to convicts in the Jail Factory itself in Jail No. 2. Taking this objective a step forward, there is a Jail Factory with state-of-the-art machinery. A diverse range of products are manufactured in the factory with the use of best quality ingredients. The items are produced in the most hygienic conditions. This gives products a touch of excellence. TJ is a unique brand with a wide range of products which are manufactured by the prison inmates in Tihar Jail Factory. TJ's has a variety of products such as Bakery products, Handloom & Textile, Apparel, Furniture, Pure Mustard Oil, Recycled hand-made paper products, paintings, designer candles & lamps, Jute bags, herbal products and many more.

The space congestion has created unprecedented problems of health, hygiene, sewerage, management control, discipline etc. This has serious adverse effect on human rights of persons. All efforts are, therefore, being to construct new jails. National Human Rights Commission, High Courts and Supreme Court are taking keen interest in decongesting of jails in Delhi. In order to decongest the

existing prisons there is a plan to construct new jails at Mandoli, Narela and Baprola. The Mandoli Jail is likely to be functional in CFY 2016-17.
